## DETAILED ACTION

### *Double Patenting*

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 11-12 and 16 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-3 of U.S. Patent No. 6,720,137. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the patented invention anticipate instant claims 11, 12 and 16.

3. Applicant filed a terminal disclaimer in an attempt to overcome this rejection. However, the terminal disclaimer is not signed by an attorney of record. The originally filed declaration and power of attorney appoints Bruce S. Londa, Brian L Wamsley and Alex L Yip. A further power of attorney signed 10/18/05 appointed Paul S. Lim as an associate agent. There is no power of attorney that appointed Serle I. Mosoff. While a paper filed by a registered patent

attorney or agent in an application in which he or she is not of record may be accepted, there are certain papers that such a person may not sign, including a terminal disclaimer (see MPEP 402).

***Conclusion***

4. Upon the filing of a proper terminal disclaimer, claims 11, 12 and 16 will be allowed.
